Health & Wellness

Tuesday, March 15 - 11:00 am – 12:00 pm

Topic: Healthy Intimacy For Seniors

Presenter: Jeanette Keyes

As we age, we can get into trouble when we try to make today the same as it was yesterday. For an aging population, sexuality bring new adventures, problems and possibilities. When we are open to experience our own sensuality without shame or judgment, and when we no longer fall victim to inaccurate stereotypes, all sorts of possibilities open up for us.

Wednesday, March 16 - 11:00 am – 12:00 pm

Topic: The Truth About Bed Bugs

Presenter: Uriel Pest Control – Alex Soto, CEO

Bedbugs are parasitic insects of the cimicid family that feed exclusively on blood. Cimex lectularius, the common bed bug, is the best known, as it prefers to feed on humans. Bedbugs are resourceful and opportunistic. Their bites often occur at night, because the insects are nocturnal, with peak activity just before dawn. This workshop will help you rid your home of these pesky home invaders.

Wednesday, March 30 - 1:00 pm – 2:00 pm

Topic: Safe on the Road

Presenter: AARP – Terri Worman, Advocacy & Outreach

Staying independent for many of us means driving our car around town and on the highway. Getting to our destination also means getting there safely – no matter the weather, road conditions, distractions, or others sharing the road. Get tips on how to be sure your car is ready to go and you are prepared for whatever comes your way!

Wednesday, April 20 - 10:00 am – 11:00 am

Topic: Your Service, Your Health, Our Focus

Presenter: Alzheimer's Association – Gene Kuhn, Education & Outreach

Presentation Description: Veterans are at an increased risk for Alzheimer's disease. This program will educate veterans about those risks, what they can do to manage their risks and how to help other veterans. Traumatic experiences and head injuries are common among our nation's veterans. This can take a toll on the brain and increase the likely hood that they will develop a brain-related disease. Sadly many vets are unaware. Open to the public. Subject matter for veterans and their family members.

Celebrate Earth Day

Tuesday, April 26 - 11:00 am – 12:00 pm

Topic: Growing Your Own Garden

Presenter: Beacon Place – Gene Sekel, Program Manager

Learning what to plant in a garden with vegetables, and how to tend them for the best harvest, is probably easier than you think. Planting a garden that includes vegetables and flowers means you've combined natural companions, and that can turn a potential eyesore into an attractive landscape feature. Home composting lesson given by the University of Illinois Extension Center.

This means an estimated 40,000 low-income working families will be eligible for SNAP benefits. To enroll in SNAP, make an appointment to visit our Access Office at Park Place 847-244-9242, or counselor2@waukegantownship.com.

Did you know?

> In response to Illinois' current budget impasse, the Illinois Secretary of State is no longer mailing license plate renewal notices to Illinois drivers. Failure to renew ones license plate on time can leave drivers with a \$20 late fee or a \$120 traffic ticket should they be pulled over with expired plates. Visit www.states.aarp.org for more information.

> You no longer need to dial one (1) before completing a phone call.

> Due to the state's budget situation, Illinois EPA has suspended the mailing of vehicle emissions test notices. Vehicle owners whose license plates expire at the end of March 2016 will be the first motorists who will not receive the vehicle emissions test notices. As a result, beginning March 1st, the Secretary of State (SOS) will allow motorists to renew vehicle registration before the required vehicle emissions testing. However, the obligation for vehicle emissions testing remains. To determine whether a vehicle is required to undergo testing, you may contact the Illinois EPA's emissions testing hotline at 847-758-3400 or 800-635-2380.
